To Whom It May Concern:

Each year our university upgrades its computer system to take advantage of changes in technology. We have worked with several leasing companies and banks over the years. This year I was delighted to find a customer friendly company that consistently exceeds my expectations. It's so much easier to deal directly with people we've gotten to know over the years. As a bonus, the lease rate was even lower than all the competitors. We are very happy with University Lease and will continue to call them for all our equipment leasing needs."

Best Regards,

Tim Jones
Director of Purchasing
